Adjusting Screen Size

The screenshot displays a Zoom meeting interface. On the left, a presentation slide from the Hearing Loss Association of America (HLAA) is shown. The slide includes the HLAA logo, the date "January 2, 2021", the title "Hearing Loss—MATTERS", the subtitle "H.O.P.E. Hearing Other People's Experiences", and a note "This meeting will not be recorded". On the right, a video feed of a participant is visible. A red circle highlights the window control buttons (minimize, maximize, close) on the video feed. A context menu is open over the video feed, showing options: "Speaker", "Gallery", "Immersive", "Show Non-video Participants", and "Fullscreen". The top right corner of the Zoom window shows the time "14:41" and a "View" button.

Glossary

ADA
See Americans with Disabilities Act

Alerting Device
Visual or tactile devices to alert a person who cannot hear to door knocks, telephone rings, fire alarms, etc.

Americans with Disabilities Act (ADA)
The Americans with Disabilities Act of 1990 Public Law 101-336 prohibits discrimination on the basis of disability by public entities.

Amplified Phone
Phone equipped with volume control on the handset.

Assistive Listening Device (ALD)
Technical tool to assist people with hearing loss, with or without a hearing aid or cochlear implant. It brings the speaker's voice directly to the ear. Helps to overcome the problems of distant and surrounding noise.
